Team Placements

- **Team Placements will take place on Sunday, June 1st. Kentucky Pride will send out e-mails and social media posts with your athletes' team placement. Season Deposits will be posted at this time.**
- **Team placements are made with the team, program, and athletes' best interests in mind. Cheerleading is a complex team sport requiring many different levels of specialized training. All these areas are considered together to properly place each athlete on a team best suited for their individual needs and that of the team. Tumbling, stunting, motions, dance, jumps, tosses, experience, attitude, maturity, work ethic, and more are considered when placing athletes on a team.**
- **After the conclusion of our evaluation process, we will send out e-mails about practice times for each team. Mandatory parent meetings will take place during the last 30 minutes of your team's first scheduled practice. Teams will be formed that will be able to score as high as possible in both difficulty and execution/technique in every aspect of the scoresheet. It is important to understand that team members will not all have the exact same tumbling skills, etc. Stunting, jumping, performance and other aspects of the scoresheet are just as important as tumbling. Please reach out to the All-Star Director with any questions you have about team placements. However, keeping in mind placements are not negotiable.**
- **Each season is a new evaluation. Being placed on a team for one year, does not mean the athlete will be placed on that team the next year. We work with athletes' hours each week. We see where they need to improve, where they need to work, how they need to be placed to maximize their growth curve and that of the gyms.**
- **Crossover Policy. Athletes will be placed on a team. They may also receive an invitation to crossover. Athletes who receive this invitation may choose to remain on their placed team or crossover to both teams. Athletes must compete with their assigned team, no exceptions. There are no additional costs to crossover for the athlete.**
